PLEASE READ & SIGN REVERSE
Instructions for Permit Applications

1. All Information must be printed legibly.
2. All information requested must be supplied by the applicant.
3. Complete description of work to be done.
4. Number of fixtures, appliances and equipment to be installed.
5. Plans must be submitted on all new buildings and major renovations.

Notes:

The burden for compliance with all applicable codes, town ordinances and State laws rest solely upon the property owner and their agent. Plans must be submitted to the Farmington Code Enforcement Department for approval.

It is the responsibility of all contractors to obtain the necessary permits from the Code Enforcement office at Municipal Building before ANY work has begun. Work must begin within (6) months of the issuance of any permit.

Electricians, plumbers, gas technicians and contractors must have a valid license from the State of New Hampshire to obtain a permit.

Permits are not transferable. If this is an “After the Fact” permit, it will be subject to a fee two times the normal permit fee.

The property owner of record may exercise their right to perform their own gas/mechanical work on their residence if he or she lives at the residence and the residence is a Single-Family Dwelling occupied by the owner of record.

INSPECTIONS REQUIRED: (Please provide 48- hour notice.)

When job is complete, and system under pressure.

When equipment is complete and placed into operation.

It is the responsibility of the contractor to obtain all inspections required. A rough-in inspection is required before any work is covered, and a final inspection is required when all work is complete. A Notice is required for any inspection. *This signed application constitutes consent on the applicant's part to allow for all inspections at the property location listed.*

No permit will be issued until all of the above information is furnished, and all the above conditions met.

Code Enforcement Approval would certify that the applicant could proceed with installation of plumbing/ mechanical fixtures in accordance with specifications submitted. Any deviation from the specifications submitted will require an amendment to this permit or additional permits.

If you have any questions, feel free to contact the Code Enforcement office at (603) 755-2774

Statement of Compliance:

I have read and understand the statement and hereby agree to all of the terms stated therein. I agree to abide by any and all codes relating to my field of work, including all national, state and local codes. I also realize that any false statement made in the application for permit may be grounds for revocation of said permit.
